This is a fine VR Rhythm game. It keeps changing games every few seconds, which can be a little frantic, but does keep it interesting. Of course some of the mini-games are better than others. The drums are great, with different layouts all the time.

Popping bubbles, not so much.

Much of the music is quite good!

Works great on Acer WMR. Pros:

- lot of fun
- quite original
- weird dialogues in demon land

Cons:

- makes no sense whatsoever
- currently quite unbalanced (see review)
- takes a bit getting into

Watch the full Review:

<https://youtu.be/vqSc9PrX7e1U>. the game is so clunky it hurts the controls are horrible the voice acting is terrible the animations are worse than resident evil 2 but on a more polished base the guns are appallingly inaccurate and pretty much useless but the game can be quite challenging and is strangely entertaining and has this odd attractive glimmer to it i wouldnt pay more than £1 for it but its a decent time killer. This is a review of Elite units of the east for Empire Total War

This is somewhat of an iffy one, if you really like the ottoman empire then it is really a must, with alot of powerful milita units such as Palastani auxilires and alot of light infantry irregluars. If you are not into this kind of factions (maratha units are in it too) then pass on this one, i still recommend it

Units: Armenian archers (Ottoman), Kardawi (maratha), Cario jannisaries (Ottoman), Cicurrian armored cavarly (Ottoman), Hayduet Irregulars (Ottoman), Libyan Golag (Ottoman), Mounted Nizam Cedet (Ottoman), Palastanie auxilires (Ottoman), Poligar (marathas), Raja Zimbardi (Marathas), Wallichan boyars (Ottoman). how can i delete configuration. Doesn't even work, gotta play with more than one person and we can't even connect to each other using IPs. Not even worth 12 minutes of banter. Honestly the best 9p i have spent. Could even make a profit off this game if you sell the trading cards!. Great game vast improvement over MotoGP 13, the graphics need to be updated for pc and the other Moto2 and Moto3 bikes better hurry along! 9/10 but with those bikes 10. It is on the highest settings and runs at 60 frames constantly on an R9 270X 4GB.. how to unlock all skin and weapon?

I know the guy who made this. This game was all him, and I have to say, he did a bang-up job making it onto Steam!

If you're reading this, "Xivek", Liam says hey.. The Game is great for Lan or local co-op playing  
its very good for a indie game shooter i love it

It has 0 glitches  
cheap  
fun  
fast paced

its pretty fun and simple

. Not sure if I can recommend this game. Price right now is decent. Premise is simple and fun. But you will spend most of your time teleporting to gems and bending over to pick them up. And bending over. Perhaps some kneeling. But then some bending again.

Meh this game is best played on your knees, and that makes me angry.. Decent story mode nothing speical, but you should never except anything too special from a fighting game story mode. Still had fun playhing through it.. I've played the demo before, probably one of the best puzzle games I've played, love the element of surprise, story, bgm, art, etc.. love all of them.

As I just bought the full version right before typing this review, I'll go and turn off the light, put on my headset, and prepare myself to scream like a little girl as I play this game. Survival in space

Has the basic survival mechanics that are key to most survival games, e.g., ensure oxygen and food supply, upgrades of suit are lost if you die, envirnmental progression (upgrade to go further and find better materials). Basebuilding is fun.

The will to stay alive and scavage is motivated by a final fight that will end the game.. this is not for gamers that like action. This was a very disappointing game. VERY BORING
